Unofficial U Konstanz Look & Feel

The Font Problem

The University of Konstanz uses proprietary fonts:

- ► **HandelGothicEFOP** (for headlines and the like)
- ► **OfficinaSansITC** (for text body)

Legal Note:

The use of those fonts is only permitted for members of the University of Konstanz, i.e., those who have access to the OpenType font files.

X∃TEX to build slides with U KN fonts

X∃TEX can deal with OpenType fonts:

To build these example slides you will have to switch from pdflatex(1) to xelatex(1).

```
$ xelatex UKN_beamer_template.tex
This is XeTeX, Version 3.1415926-2.2-0.9995.2 (TeX Live 2009)
entering extended mode
(./UKN_beamer_template.tex
LaTeX2e <2009/09/24>
...
Output written on UKN_beamer_template.pdf (4 pages).
Transcript written on UKN_beamer_template.log.
```

UKNBeamer in the wild

The template file for the slides is to be found on:

- ► UKNBeamer's home:
  https://github.com/holu/UKNBeamer
- ► For bug reports, feature request and the like:
  https://github.com/holu/UKNBeamer/issues

Have fun.
